---

Included are photos of SC-S088 and SC-S085 (RM 5.7E, Cathedral Park Boat Launch). After three attempts, core sample SC-S085 was collected, with the first attempt yielding highest recovery of 75%, no observed odors or NAPL present.

Three coring attempts were made at SMA SC-S088 (RM 5.7, Cathedral Park Boat Launch). The Vibracore encountered refusal due to rock/wood debris. The first attempt was collected at 44%, with no observed odors or NAPL present. The core was cut down to a manageable size for transport.

Jonni
